Toronto, Ontario | 437 982 2579 | brennocesar@live.com | linkedin.com/in/brennocesarlima

## ABOUT ME

---

I'm a frontend-focused web developer passionate about building clean, intuitive, and engaging user experiences. With a strong foundation in **JavaScript**, **React**, **HTML**, and **CSS**, I love bringing designs to life. In my current role, I've become a more cross-functional contributor, leading frontend initiatives, designing **UI/UX** features in **Figma**, and collaborating closely with product, QA, and marketing teams. My background includes both startups and larger companies, teaching me **adaptability**, **ownership**, and the ability to deliver in fast-paced environments. I'm always eager to learn, take initiative, and contribute to meaningful work.

## WORK EXPERIENCE

---

**Frontend Developer** - Igloo Software - Ontario

2022 - current

- Designed and implemented modern **UI/UX** features in **Figma** and translated them into scalable **frontend components**
- Took on more **leadership** within projects, guiding technical direction and making architectural decisions on the frontend
- Collaborated directly with product managers, backend developers, QA, and marketing teams to align development with business goals
- Maintained and **improved** interfaces using JS, **React**, **TypeScript**, and **Remix**
- Participated in **GitHub** peer reviews, **debugging**, and **quality assurance** to ensure seamless user experiences

Main tech stack: **React.js**, **JavaScript**, **TypeScript**, **Remix**, **Jira**, **GitHub**, **Figma**
